# Re-design company website

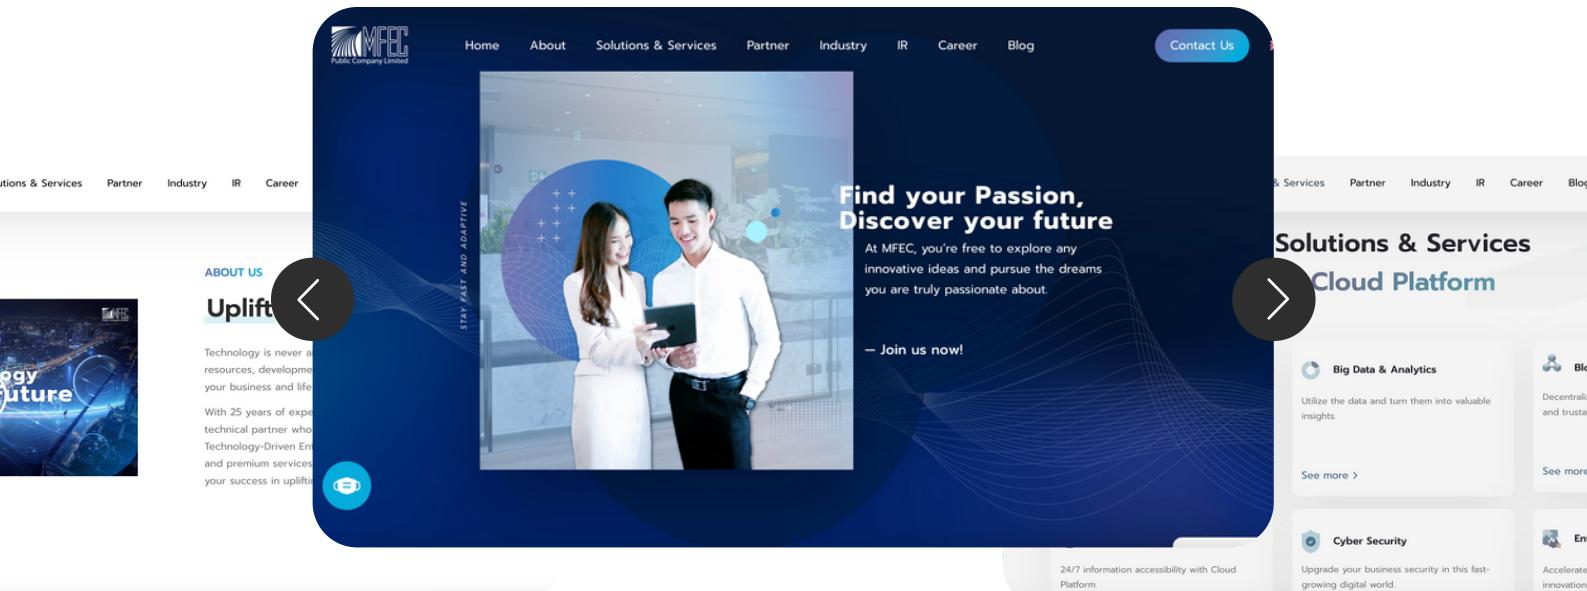

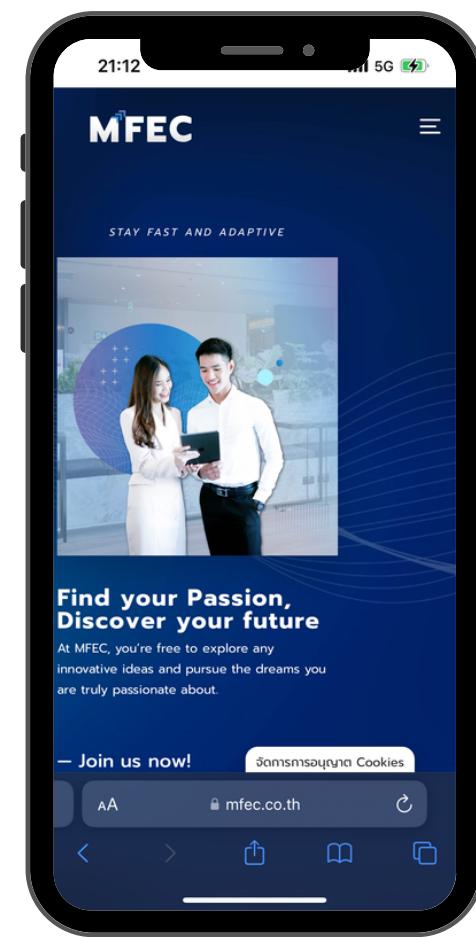

This project is for re-branding the company in 2022. The design defines new technology and more power in the concept "Uplift Your Digital Life".

**Role:** Graphic Designer & UX/UI Designer

## Responsibilities:

- Created graphics design in part of the banner on some pages and made a bit of a retoucher.
- Made the wireframe and design system.
- Arranged the content in some sections.
- Made the responsive.
- Helped and developed on WordPress.

## Alt.Art NFTs website

Alt art is a platform for NFT Artists who can sell their NFT to art enthusiasts and can buy and add NFTs to their collections.

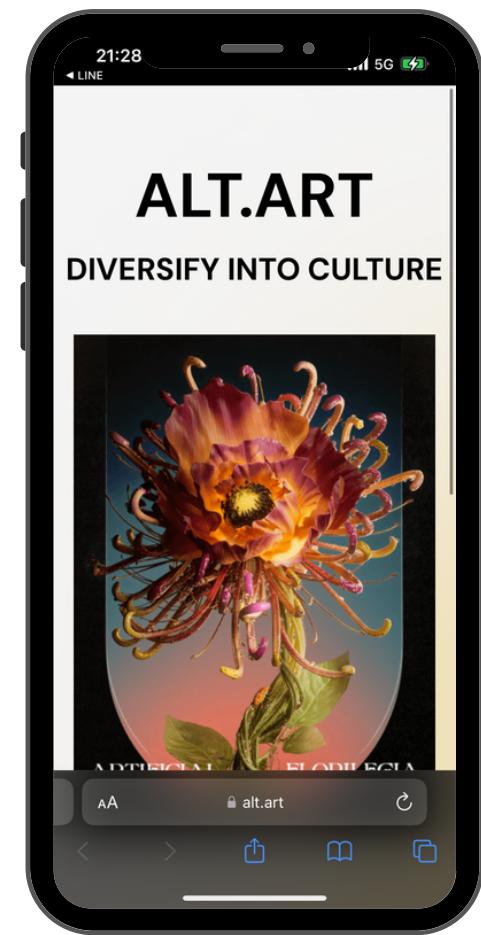

The website has to feel like a community, people can let their opinions be known.

**Role:** UX/UI Designer

### Responsibilities:

- I've created a low-high fidelity wireframe.
- Get requirements and feedback from foreign customers.
- Created UI design with the prototype.
